

Mrs Simpson's Sizzling Spotlight

Cohort Curriculum Events

This week's Sizzling Spotlight is all about **Cohort Curriculum Events**. In a previous spotlight I have showcased the Australian Curriculum—the 'what' we have to teach in every Australian school. In order to engage our learners in the curriculum, our students are given opportunities to foster curiosity and promote learning for the units of work each term. Some of our Term 3 curriculum events included:

Our Year 3 'Japanese Cultural Expo', providing an opportunity for students to build their knowledge of Japan in preparation for their unit of work based on the text, *Kumiko & The Dragon*.

Our Year 1 students hosted their *Very Blue Thingamajig* character afternoon, making character costumes and having a whole cohort reading session while growing their knowledge of adjectives.

Our Prep students celebrated 100 days of Prep by learning about the 'olden days', building their curiosity for their HASS unit of work and our Year 5 students kicked off the term observing their very own 'Truffula tree' garden, just like the book they are reading for English, *The Lorax*.
